essentials

the essentials selection

The **essentials** product group is just that – ESSENTIAL

In addition to the long established CLICK brand of moulded electrical accessory products we have developed and introduced additional accessory ranges, namely POLAR, CURVA & MODE, as well as decorative metal ranges.

Whilst each of these ranges are unique in their own right, the plate accessory is only part of the complete wiring solution. Hence our range of **essentials** illustrated herein.

The **essentials** group of products comprises those items that you will find in a wide variety of installations. Products such as junction boxes, flush mounted switch and socket boxes, cable clips and connector strips etc. etc..

metal clad accessories

A comprehensive selection of metal clad electrical accessory products are featured in the following pages. Electroplated coated plates and back boxes provide a durable and long lasting heavy duty finish to this attractive range of products.

All switch products are of modular construction allowing the installer total freedom in designing customised switching solutions according to on-site needs.

All socket outlets and spurs are BS Kitemark approved to BS1363. Unfurnished plates and mounting boxes are available for use in conjunction with our extensive range of MINIGRID and NEW MEDIA modules.
