MODE

the mode selection

A stylish, contemporary & flexible range of smooth profile wiring accessory solutions

There are many crucial elements of any interior design – the more obvious ones are décor and furnishings. Less obvious but no less important are electrical accessories; particularly wall accessories which, by their very nature need to be located in prominent line of sight positions.

When selecting wiring accessories designers have often compromised their schemes as they have been unable to identify a suitably flexible solution to satisfy their ideas.

CLICK MODE Accessories can now provide that flexibility with a comprehensive selection of products ranging from the humble light switch and socket outlet through to more specialised products dealing with the very latest developments in telephone and satellite products.

MODE Accessories have been conceived and developed as a high quality, flexible and modern solution to virtually any domestic wiring requirement. The smooth, modern lines of the MODE accessory plate will fit easily into traditional and contemporary designs alike.

The modular design of MODE allows designers and installers unprecedented flexibility in creating dedicated wiring solutions to deal specifically with actual wiring needs.

In other words, there is now no need to compromise – CLICK MODE Accessories provide the complete solution to modern wiring needs.

the mode collection

The MODE Collection can be broken down into the following product groups:

Modular Switches

CLICK MINI GRID modules offer a wide range of modular switching functions created with simple, single screw fixing for ease of installation.

Dimmer & Control Switches

1 through to 4 gang dimmers plus 10A and 20A control switches

Socket Outlets

Unswitched and DP switched 13A socket outlets and round pin 2A, 5A and 15A sockets plus clean earth sockets for computer use.

45A Accessories

A comprehensive selection of wall and ceiling switches plus cooker control units

Media

In addition to conventional TV, satellite and telephone sockets the introduction of CLICK MEDIA modules further enhances the modular nature and flexibility of the MODE Accessory selection.

Complementary Ranges

MODE comes with the finest pedigree – it is the latest in an increasingly long line of innovative and high quality product groups developed under the CLICK banner. For details of other CLICK accessory and lighting product groups please refer to the inside back cover of this catalogue and contact our sales office for further information.

MODE

switches

10AX Plate Switches (Modular) • 10AX Architrave Switches (Modular)
Dimmer Switches • Control Switches
45A Switches • 50A Pull Switch

The range of MODE switches described in the following pages has been developed largely as a modular range based on the large selection of switch modules available in the CLICK MINIGRID Module range - see opposite page.

These same modules are fully interchangeable in other CLICK accessory ranges such as metal clad, DECO & DEFINE decorative metal as well as traditional CLICK and POLAR moulded ranges.

Simple, single screw fixing of modules offers the simplest possible means of installing and replacing modules.

Dedicated media transfer modules are dealt with in the later pages of this catalogue (see pages e18-e20) and our separate MEDIA product brochure.

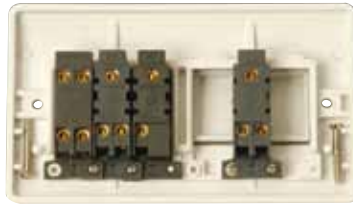

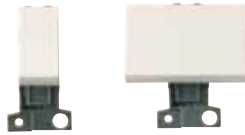

20 YEAR

No Quibble Guarantee

All **CLICK MODE** accessories are covered by our straight forward **No Quibble Guarantee** against any fault in materials or manufacture experienced at any time within 20 years of the date of supply

switches

The products illustrated in this section of the catalogue are finished plates and unfurnished mounting plates. For comprehensive information on the full range of modules available please refer to our CLICK MINIGRID product brochure.

new media

New Media Module Plates • Co-Axial And Satellite Outlets
RJ11 / RJ45 Data Outlets • Uk Telephone Outlets

Providing the means to facilitate the connection of modern communications equipment is as important today as it is to provide the electrical power to operate them.

This section of the catalogue is devoted to the NEW MEDIA range of plate accessories which includes products for connecting telephone, computer, television and satellite devices.

new media

New Media Module Plates

Like MODE power products, the NEW MEDIA range of accessories has been developed as a modular based range designed to allow the utmost flexibility in producing communications solutions according to constantly changing needs and circumstances.

NEW MEDIA modules are of the standard Euro Grid configuration based on a single module size of 50 x 25mm.

For details of the full range of NEW MEDIA modules please refer to our NEW MEDIA product catalogue.

New Media Modular Plates

CMA310	Single Plate Single Aperture For Media Modules
CMA311	Single Plate Twin Aperture For Media Modules
CMA312	Twin Plate Quad Aperture For Media Modules

For a complete range of new media modules please see our dedicated New Media catalogue.

The unfurnished plates illustrated hereon are designed exclusively for use with NEW MEDIA modules. Please refer to Page e8 for details of unfurnished plates to accommodate CLICK MINIGRID switch and power modules.
